Subject: Re: CAG one pager

OK, so does either Monday or Tuesday afternoon work for the conference call and maybe we can bump the dry run to either Wednesday or Monday, April 5th?

Just to get everyone thinking here are some of the initial suggestions I've got down for April's agenda:

Green Remediation

Background presentation on 17-mile project

Presentation on lower 8-mile conceptual site model, which Alice would like to switch for Presentation of lower 8-mile system understanding (the basis for the modeling work)

Phase 1 removal CHASP feedback session (give & take based on review so far)

CIP update/finalization plan

Presentation of what it means to design the Phase 1 removal - what's involved & the schedule

Seems like too much so some of this will probably have to get bumped to another month. The other things to consider for the broader schedule are the request to add a river visioning exercise and a presentation by boaters or one of the boat clubs.

Thanks,
Elizabeth

Subject Re: CAG one pager

Hi all, Carol and I are both out Thursday and Friday next week. Carol is also out Tuesday morning, and I have a conference call Monday at 10

thanks
Doug
